

The Mudit is Esthetica's four-motor electric treatment table for spas and wellness centres, combining essential electronic adjustments with a clean, low-profile design. Electronic controls for the backrest, legrest, height, and Trendelenburg function give therapists precise positioning for a wide range of treatments. A built-in storage compartment accessible from both sides keeps spa essentials within reach, while the solid wood and veneer base brings a warm, contemporary aesthetic to any treatment room.

KEY FEATURES

Nose Slot with Removable Neck Pillow

The Mudit's single-piece top cushion features a nose slot with a removable neck pillow, allowing clients to lie comfortably in the prone position during massage treatments without strain on the neck or back.

Trendelenburg Function

The Mudit's electronically adjustable Trendelenburg and reverse Trendelenburg function allows the entire table surface to tilt, enabling optimal positioning for specialised treatments such as facials and body wraps — improving both treatment outcomes and guest comfort.

Dual-Access Storage

The Mudit features a built-in storage compartment that can be accessed from both sides of the table, giving therapists convenient access to towels, oils, and spa accessories without disrupting the flow of the treatment.

Veridura Phthalate-Free Upholstery

Available in Veridura Phthalate-Free Upholstery, designed for professional spa environments, offering a safer surface for both clients and therapists. It resists stains, acetone, and disinfectants, withstands frequent cleaning, and ensures durable, fire- and abrasion-resistant performance.
