

The Anagh is Esthetica's professional pedicure spa chair, designed for premium spas seeking a full-featured pedicure station with a luxury aesthetic. A pipeless jacuzzi function ensures superior hygiene with an easy-to-clean basin, while chromotherapy lighting creates an immersive, calming experience for the guest during every treatment. Electronic seat and backrest adjustments, a sliding side frame for easy client access, and a fold-away wooden armrest for manicure treatments make the Anagh as practical as it is refined.

KEY FEATURES

Pipeless Jacuzzi with Chromotherapy

The Anagh features a pipeless jacuzzi system for superior hygiene — with no pipes to harbour bacteria, the basin is easy to clean between guests. Built-in chromotherapy lighting adds a soothing colour-changing ambiance that enhances the pedicure experience from start to finish.

Sliding Side Frame for Easy Guest Access

One side of the Anagh can be manually slid back, creating a wider entry point that makes it easy for guests to get on and off the chair — a thoughtful detail that improves both comfort and accessibility.

Electronic Seat & Backrest Adjustment

Both the seat position and backrest are electronically adjustable, allowing therapists to configure the chair precisely for each guest's comfort and treatment requirements — without interrupting the flow of the service.

Veridura Phthalate-Free Upholstery

Available in Veridura Phthalate-Free Upholstery, designed for professional spa environments, offering a safer surface for both clients and therapists. It resists stains, acetone, and disinfectants, withstands frequent cleaning, and ensures durable, fire- and abrasion-resistant performance.

FEATURES

Backrest	Electronically Adjustable
Seating Position	Electronically Adjustable
