

The Isa is Esthetica's entry-level electric spa treatment table, offering electronic height adjustment and Trendelenburg function alongside manually lockable backrest and legrest positions — making it a practical, reliable option for spas seeking essential electric functionality at an accessible price point. A four-piece adjustable top cushion, detachable face cradle, and head pillow ensure guest comfort across a range of treatments, while the two-column base design and natural wood veneer construction bring a clean, grounded aesthetic to the treatment room.

KEY FEATURES

Electronic Height Adjustment

The Isa features electronic height adjustment allowing therapists to set the table height and tilt the surface for specialised treatments — all at the touch of a button.

Detachable Face Cradle & Head Pillow

The Isa comes with a detachable face cradle and head pillow, allowing clients to lie comfortably in the prone position during massage treatments and giving therapists the flexibility to configure the table for a wider range of services.

Four-Piece Adjustable Top Cushion

The Isa's four-piece top cushion allows individual sections to be positioned independently, providing therapists with greater flexibility for client positioning across a range of treatment types.

Manually Lockable Backrest & Legrest

The Isa's backrest and legrest can be manually adjusted and locked at multiple positions, giving therapists the flexibility to configure the table for different treatment requirements without the complexity of full electronic controls.
